RECOGNITION OF PRIOR LEARNING (RPL) & CREDIT TRANSFER (CT)

The Australian Fitness Academy recognises AQF qualifications and Statements of Attainment issued by other registered training organisations (RTOs) and competencies currently held regardless of how, when or where learning occurred.

Australian Fitness Academy currently offers the opportunity for RPL and CT in units of competency for the following qualifications:

- SIS30321 Certificate III in Fitness
- SIS40221 Certificate IV in Fitness
- First Aid (HLTAID009 or HLTAID001 Provide cardiopulmonary resuscitation, or HLTAID011 Provide first aid)

▶▶▶▶▶ Recognition of Prior Learning

Recognition of prior learning is an assessment process that involves assessment of an individual's relevant prior learning (including formal, informal and non-formal learning) to determine the credit outcomes of an individual application for credit. (National Quality Council Training Packages glossary).

If you wish to apply for RPL, please request the relevant RPL Candidate Application Kit document from the AFA Course Consultant on (03) 9532 7800 prior to enrolment. This kit will provide a detailed outline of the process involved in applying for RPL. Please note, the RPL Application process is very thorough and requires submission of a large amount of evidence and documentation. It can take several weeks to process the documentation and provide an outcome, so please consider this when submitting your application.

Students seeking RPL in more than one qualification are encouraged to submit the relevant RPL Candidate Application Kits and supporting evidence for all qualifications with their initial application to facilitate the application process.

Once the outcome of your application has been determined, you will be notified in writing of any RPL received, as well as any remaining training and assessment that is required to complete the qualification.

Where RPL has been granted for all units that make up a full qualification, the remaining balance of the course fees must be paid before the certificate for the qualification can be issued.

Please note, charges may vary for students studying with AFA through government funding. Please ask the AFA Course Consultant for more information on fees and charges.

▶▶▶▶▶ Credit Transfer

Credit Transfer is a process that provides students with agreed and consistent credit outcomes for components of a qualification based on identified equivalence in content and learning outcomes between matched qualifications. (<https://www.aqf.edu.au/sites/aqf/files/credit-transfer-explanation.pdf>)

You may be eligible for CT if you have completed any units of competency from another AQF qualification that have equivalent content, outcomes or unit codes. If you wish to apply for CT, you need to notify the AFA Course Consultant at the time of enrolment and submit a certified Statement of Attainment or Record of Results as evidence. The documents will be verified by Australian Fitness Academy before CT is awarded. There is no cost associated with applying for credit transfer only.

Students wishing to apply for a combination of both RPL and CT for a qualification should follow the RPL process outlined above.

▶▶▶▶▶ Access and Equity

All students will receive fair and equitable treatment, opportunities and access to all aspects of training and assessment with Australian Fitness Academy.

Prior to enrolment, students must complete a pre-training review to enable AFA to assess their suitability for enrolment into their nominated course. The review includes a series of questions to determine whether the student's language, literacy and numeracy (LLN) skills are at an appropriate level to participate in the course and to identify whether the student has a disability or specific learning needs that require additional support.

Students are encouraged to disclose any conditions that may impact their ability to participate in the course and request assistance when completing the course enrolment form and to contact the student support team if the need develops during their study period.

Reasonable adjustment:

Australian Fitness Academy is committed to providing opportunity for all students to participate in training and assessment and offers flexible, individual learning and assessment strategies. Where a need for support is identified, the student will be contacted by the AFA Student Support Team to discuss the specific needs of the learner. If required, the Training or Education Manager will assist to modify the student's training and assessment to suit and accommodate the individual where possible. Modifications will be documented and communicated to all trainers and assessors involved in the delivery. Where allowable, the following adjustments and support may be offered:

- One on one tutoring
- Individual student support
- Alternative assessment methods
- Extension to assessment timeframes
- Extension to course duration
- Use of assisted technology or aids
- Transfer to alternative delivery methods

In some cases, reasonable adjustment may not be possible due to the following reasons:

- The student is unable to meet occupational health and safety standards or their ability to participate poses risks to safety to themselves or others
- The adjustment gives the student an advantage over other similar learners, or negatively impacts others.
- The adjustment compromises the unit requirements, course standards or outcomes

Australian Fitness Academy has identified that the following qualifications have specific physical requirements that cannot be modified for assessment.

- SIS30321 Certificate III in Fitness
- HLTAID011 Provide first aid
- HLTAID009 Provide cardiopulmonary resuscitation

(A physical capability to perform 2 minutes of uninterrupted CPR on a manikin on the floor is required for all of the above qualifications)

Where students are unable to meet assessment requirements, a qualification or Statement of Attainment cannot be issued. Students may still choose to participate and may be eligible to receive a Statement of Attendance in these situations.

If it is identified that the student does not have the LLN or technical skills to study the course, the student will be directed to one or more of the following resources:

STUDENT SUPPORT SERVICES

AFA is passionate about providing fitness education that delivers more than just a certificate and prepares you for work within the fitness industry. AFA offers support that continues long after you complete your study with us. From access to our quarterly e-news through to our fully integrated student support services you are kept informed with the latest career opportunities, industry news and health and fitness research.

Further to the educational support services outlined in the Student Welfare Policy, students and graduates of AFA also have access to:

▶▶▶▶▶ AFA Alumni

Access to AFA's student support extends beyond your time with us as a student and lasts for the duration of your fitness career. Free membership includes regular newsletters, industry news and updates, latest fitness research as well as access to the latest job and career opportunities. Access to the Alumni is via the web site at <https://www.fitnesseducation.edu.au/resources/afa-alumni/>

▶▶▶▶▶ Fitness Industry Careers

With over 30-years of experience in delivering fitness qualifications, we are committed to providing students with the best start to a career in the fitness industry. Students who demonstrate an outstanding commitment within the work experience placement are often offered employment by the host fitness centre on completion of their studies. The work experience placement provides a great opportunity for students to develop relationships directly with employers.

AFA has long standing networks with many of the larger employers including Fitness First, Goodlife, Genesis, Jetts, Derrimut 24:7 and Snap Fitness. We are regularly contacted by employers requesting us to recommend graduates to fill vacancies at their facilities.

Access to the leaders in staff recruitment – Our students also have access to Healthy People and Sports People, two of the leading sports and fitness recruitment organisations in Australia.

Please refer to the Job Board on our website (<https://www.fitnesseducation.edu.au/career/>).

▶▶▶▶▶ Work Experience (Practical Placement) Program

The Practical Placement Program is a mandatory requirement of both the Certificate III & IV in Fitness qualifications. It requires students to complete structured activities in a fitness workplace under the supervision of a qualified mentor. Practical placement assists you in applying the knowledge learnt to the 'hands-on' instruction of exercise and fitness training. Most larger fitness centres are suitable for the program and students should be able to access a facility convenient to their location. Students are encouraged to find a gym facility close to them. AFA also has a large database of suitable facilities which is made available to students.

We find that many of our students who impress their mentors in the placement are offered the opportunity to work at the fitness centre once they have graduated. Many employers use the practical placement as a substitute to a job interview as it gives them the chance to 'check out' potential employees over an extended period of time.

▶▶▶▶▶ Post Graduation Study Access

Every AFA student receives 12-months access to the AFA online learning system after graduation from their course. This enables graduates to have a resource to refresh their fitness knowledge as they transition to employment. Face to face students can also come back and sit in on 3 face to face lectures over a 12-month period.

Students will need to request their graduate access period by contacting the Administration team.

For further information on any of these Student Support Services please contact the Student Academic Officer on (03) 9532 7800.

ASSESSMENT PROCEDURE

AFA's Assessment Strategy aims to effectively balance the following considerations:

- meeting the compliance requirements of the relevant Training Package and Standards for RTO's 2015
- maintaining realistic and achievable expectations when assessing a learner's theoretical knowledge and practical skills through a variety of assessment methods
- utilising feedback from a range of stakeholders to ensure assessments continue to meet current industry needs and the needs of learners

AFA delivers competency based learning using a variety of assessment methods including written tasks, online quizzes, practical demonstrations, group and individual activities and workplace simulation.

AFA ensures that all assessments are flexible, fair, reliable and valid. Where a student has notified AFA prior to enrolment that assistance may be required in the areas of practical capabilities or language, literacy and numeracy, AFA will attempt to modify the assessment process to best suit the needs of the student. COMPLAINTS AND APPEALS

Australian Fitness Academy provides appropriate mechanisms and services for learners to have concerns reviewed and addressed where appropriate. The policy ensures the principles of natural justice and procedural fairness are adopted at every stage of the complaint and appeal process.

Procedure:

Australian Fitness Academy is committed to the principles of negotiation and mediation in dealing with any complaints, appeals and grievances relating to:

- assessment procedures and results
- curriculum
- trainers / staff
- harassment
- treatment of students by other students
- code of conduct breach
- outcomes of a complaint
- other matters as they arise

Complaint: a dissatisfaction with Australian Fitness Academy's practices, such as:

- quality of products, services or facilities offered by AFA
- behavior of staff or other students
- procedures of operation

Appeal: a dissatisfaction with an outcome or decision relating to:

- an assessment result
- the outcome of a complaint

Where a student has experienced dissatisfaction, an initial complaint or appeal (verbally or written) should be communicated to the Training Manager (for education related matters) or the General Manager (for all other matters) in an attempt to resolve the issue informally. To make a complaint or appeal, please contact AFA on administration@afa.com.au or 1300 232 348.

The complaint or appeal will initially be managed between the involved parties and the Training Manager/General Manager with an attempt to resolve the issue. Students will be offered the opportunity to be accompanied by a support representative when undertaking this process.

Should a satisfactory outcome not result, the student will be required to submit a formal complaint or appeal in writing to the Training Manager (for education related matters) or the General Manager (for all other matters) within 10 days of the occurrence. Receipt of the grievance will be acknowledged in writing to the student.

The AFA representative will arrange a meeting between the parties, where both accounts of the situation can be heard and a further attempt to resolve the issue will be made. Minutes from the meeting will be recorded and kept as documentation of the event and will be acknowledged by all parties. The grievance outcome and reasons for outcome decision will be reported in writing to the complainant.

If a satisfactory outcome has still not been reached, the General Manager will advise the complainant to:

- Notify the Australian Skills Quality Authority (ASQA) of the complaint (<https://www.asqa.gov.au>), or
- Engage an independent party of AFA and the complainant (such as the Australian Competition and Consumer Commission: <https://www.accc.gov.au>, or other suitable party) to conduct a review.

Please note: Any costs associated with this process will be paid by both AFA and the complainant in equal portions. ASQA is not able to act as the independent third party for reviewing complaints.

Australian Fitness Academy ensures principles of natural justice and endeavours to resolve all complaints fairly and equitably and within a reasonable timeframe. AFA will endeavor to respond to all complaints within 10 working days. Where AFA considers more than 60 calendar days are required to process and finalise the complaint or appeal, AFA will:

- inform the complainant or appellant in writing, including reasons why more than 60 calendar days are required, and;
- regularly update the complainant or appellant on the progress of the matter.

The student's enrolment at AFA shall not be affected and will be maintained during the period until the appeal is resolved.

PLAGIARISM AND CHEATING

Australian Fitness Academy is committed to upholding standards of academic integrity and honesty. Plagiarism and cheating in any form is unacceptable and will be acted upon appropriately. Gaining or attempting to gain an accredited qualification through plagiarism, cheating or fraud is an extremely serious action and is considered as a crime.

Definitions:

Plagiarism: To take the ideas or comments of another person and present them as one's own without providing appropriate acknowledgement. This includes material from any source, staff, students or the internet, published and un-published works.

Cheating: To seek to obtain an unfair advantage in written or practical work required to be submitted or completed for assessment.

Australian Fitness Academy staff and students both have a duty to ensure all students gain the necessary academic understanding to prevent incidents of plagiarism and cheating.

A staff member who suspects that plagiarism has occurred will take steps to detect plagiarism, produce evidence (such as identifying the original source document) to support their allegation and will promptly report all information to the Training Manager. The Australian Fitness Academy assessors have access to the following plagiarism software; www.quetext.com or Viper anti-plagiarism software through www.scanmyessay.com. It is recommended that students also use a similar plagiarism detection program to scan their assessments prior to submission.

The Training Manager must decide whether they believe that plagiarism was likely to have been intentional or unintentional and will liaise with the student to explain the situation and provide the student with the opportunity to respond to the allegations.

If the student's act of plagiarism was not intentional, no further disciplinary action will be taken and the student will be provided with education about correct methods of source acknowledgement for future assessments.

If the student is unable to provide a satisfactory explanation to the similarities between the student's work and the original source document, the Training Manager may infer that plagiarism was done with intention to cheat. The matter is then reported as suspected cheating and disciplinary actions according to the AFA policies and procedures will be taken. The student may be withdrawn from the qualification and prevented from re-enrolling. Under these circumstances students will not be eligible for a refund of fees.

In other circumstances when cheating has been suspected, investigation and disciplinary action will occur using a similar process to that described in the previous plagiarism scenario.

Any decisions in regards to plagiarism and cheating made by the Training Manager will be final.

Due to the sensitivity of this issue AFA will endeavour to make a decision within 5 working days of the incident being detected.

ARTIFICIAL INTELLIGENCE (AI) POLICY

The use of Artificial Intelligence (AI) in education is becoming increasingly commonplace. Australian Fitness Academy recognises AI may be used by students to assist in their learning. The following policy clarifies when and how students can use AI throughout their course:

- AI should not be used to 'replace' the resources and support services provided in your Australian Fitness Academy course. Throughout your studies, it is essential you gain a thorough understanding of the course content and how it is applied to the fitness environment. An over reliance on AI may limit the development of your understanding and knowledge.
- AI may be used as an adjunct or as an additional resource. However, we recommend you contact our student support team should you require assistance or clarification of topics and assessments.
- AI cannot be used to assist in the completion of assessments. Responses submitted in assessments must be the result of your own understanding and effort. Copying or relying on AI-generated content will be considered a violation of academic integrity.
- The AFA Plagiarism and Cheating Policy clearly indicates that students cannot:
 - Take the ideas or comments of another person and present them as one's own or
 - Seek to obtain an unfair advantage in written or practical work required to be submitted or completed for assessment.

AFA assessors have access to plagiarism software and there are significant penalties for students who are deemed to have plagiarised or cheated in assessments. The penalties include enrolment cancellation and the forfeiture of course fees.

By submitting your work, you affirm that you have not used AI or any other unauthorized tools to complete the assessment and that you accept the terms and conditions of the Plagiarism and Cheating Policy.

We trust that all students will approach the assessments with honesty and integrity, demonstrating their individual understanding of the course material.
